

# Thato Sekonya

WEB DEVELOPER

## PROFILE

I am a forward-thinking developer with solid technical and requirements gathering skills.

In having made several projects, I have become acutely attuned to the software development cycle, this including testing, implementing wireframe designs and debugging code.

In my work as a fundraiser and administrative assistant, I have established a strong sense for communicating ideas and project planning.

## WORK EXPERIENCE

### Fundraiser

CHILDHOOD CANCER FOUNDATION SOUTH AFRICA

03/2017 - 06/2018

- Worked successfully with diverse group of coworkers to accomplish goals and address issues related to the raising of funds.
- Boosted fundraising donations by organizing events which increased outreach and communication efforts.

### Administrative Assistant

SEKONYA ATTORNEYS

06/2020 - 08/2020

- Conducted research using various sources to obtain relevant data for legislative requirements.
- Directed customer communication to appropriate department personnel.
- Organized and maintained filing and document management systems by coordinating and archiving files.

### Drew Economics and Business Society

SECRETARY

09/2018 - 03/2019

- As member of this society my work included the marketing and organization of events for the Drew university community.
- Worked with students to market their degrees to potential employers.
- Maintained organizations website and connections to lecturers in various fields of study.

### Kanban board Clone

COMPLETED

12/2020

- Having used Kanban multiple times for group work, I became interested in implementing my own Kanban board that fully utilizes each create, read, update and delete operation.
- Built with JavaScript, HTML/CSS.

### Weather Application

COMPLETED

06/2021

- Responsive single page application that uses async/await to consume data from a forecasting API to display the weather for different locations.
- Built with React.js, React Hooks, Axios.

### Splash Page

COMPLETED

01/2020

- In properly understanding the software development cycle this splash page was created by using Figma designs to build out the UI for a splash page that additionally has light and dark mode features.
- Built with JavaScript, HTML, CSS, Figma.
